SUMMARY

Cloud Solutions Engineer at Intel Corporation with a [Master's thesis](#) on "Deep Learning based Classification of FDG-PET Data for Alzheimer's Disease". Passionate about machine learning & deep learning. Programming skillset includes Python, C, Java & C++.

EDUCATION

ARIZONA STATE UNIVERSITY

M.S. IN COMPUTER SCIENCE | ETA
KAPPA NU (IEEE HONORS SOCIETY)
Graduated May 2017 | Tempe, AZ
Cum. GPA: 3.8/4.0

THE LNM INSTITUTE OF INFORMATION TECHNOLOGY

B.TECH IN COMPUTER SCIENCE
May 2015 | Rajasthan, India
Cum. GPI: 8.8/ 10.0

AWARDS

- 2014 Full Funding Scholarship to present, LWMOOCs Workshop, MIT
- 2011 INSPIRE (Innovation in Science Pursuit for Inspired Research)

COURSEWORK

GRADUATE

Machine Learning
Computer Architecture II
Mobile Computing
Software Security
Software Design
Game Theory with Applications
Advanced Computer Graphics
Advanced Geometric Modelling
Computational Conformal Geometry

UNDERGRADUATE

Linear Algebra
Scientific Computing
Design & Analysis of Algorithms
Information Security and Cyber Laws
Object Oriented Programming (Java)
Digital Image Processing
Data Mining

SKILLS

Programming Languages:
C • Python • Java • C++ • Scala • PHP •
LaTeX
Applications:
BASH • Spark • CDH • MATLAB •
Tensorflow • IntelliJ • Linux • MacOS •
MySQL

CERTIFICATIONS

Oracle Certified Java Professional (2014)

PROFESSIONAL EXPERIENCE

INTEL CORPORATION | CLOUD SOLUTIONS ENGINEER

June 2017 - Present | Oregon, United States
Working with customers on planning and designing Machine Learning solutions for distributed systems that best fit their requirements.

INTEL CORPORATION | SOFTWARE ENGINEER INTERN

May - August 2016 | Oregon, United States
Benchmarked Deep Learning libraries on distributed systems for the MNIST dataset, and contributed to the spark toolkit on the Trusted Analytics Platform TAP spark-tk, a spark based toolkit for developing machine learning based analytics solutions for distributed platforms.

QATAR FUEL (WOQOD) | TRAINEE, I.T. DEPARTMENT

June - July 2014 | Doha, Qatar
Trained in Application and Database Management. Tools Used : Win DMS, Oracle ERP, Fuel Facs, and Adobe - Photoshop, Illustrator and Dreamweaver

INDIAN INSTITUTE OF TECHNOLOGY | SOFTWARE DEVELOPMENT INTERN

January 2014 - May 2014 | Mumbai, India
I.I.T. Bombay implemented a Blended MOOC Framework. My Work was to understand & extend the open source edX framework to accommodate requirements of blended MOOC. Tools Used : Python, Django, JavaScript, XML, mongoDB, MySQL

PUBLICATIONS

- 2017 Conference Paper - SPIE Journal
- 2017 [Poster](#), Arizona Alzheimer's Consortium Deep Learning
- 2017 [Poster](#), Arizona Alzheimer's Consortium Machine Learning systems

ACADEMIC PROJECTS

ALPHABETS, DETECTION OF AMERICAN SIGN LANGUAGE |

TOOLS USED: MYO SENSOR, R, JAVA, PHP

Developed an Android app to translate Sign Language Alphabet actions to readable text, also spelled out using wireless sensors. The context consists of signals collected from various sensors placed on the arm of a user using a wireless armband (Myo sensor).

SOCIALLY EXPRESSIVE PHYSICAL AGENT | TOOLS USED: 3D

PRINTER, PSoC CREATOR 4.0

Developed a 3D robot face from 3D printing it, to wiring, and programming it to be capable of displaying facial expressions.

SPHERICAL CONFORMAL PARAMETRIZATION | TOOLS USED: C++, MESH LIBRARY

Implementation of gradient descent algorithm to find a unique mapping between any two genus zero manifolds by minimizing the harmonic energy of the map.

IMPLEMENTATION OF INSERTION POLICIES - CACHE | TOOLS USED: C++, GEM5

Implementation of LRU insertion Policy, Bi-modal Insertion policy, Dynamic Insertion Policy, BRRIP and DRRIP in gem5.

FACE RECOGNITION SYSTEM | TOOLS USED: MATLAB, TOSCA

Development of a Face Recognition system using TOSCA library

POLARIS, PREVENTION OF CROSS SITE SCRIPTING ATTACKS

TOOLS USED: PYTHON, PHP

Developed a tool Polaris, which sanitizes user input on behalf of the developer to prevent XSS attacks which given a PHP file, returns a modified version robust to XSS attacks.
